TORMA® BAC MICROBIOLOGICAL ODOUR NEUTRALISER AND MAINTENANCE CLEANER BASED ON BACTERIA

- HACCP-COMPLIANT

Art.-No.	Container Type	Packaging Unit	Pallet Unit
4300	1 L round bottle	12 pcs. per carton	50 canisters
18-59-0357	500 ml blue spray bottle, empty, without label		
18-53-0133	Label for 500 ml spray bottle		
18-59-0359	Spray head for spray bottle		

APPLICATION AREA

Unpleasant odours are reliably eliminated. **TORMA® BAC** penetrates the structure of the affected surface and removes odours caused by the decomposition of organic substances. It is particularly suitable for maintenance cleaning and odour removal on heavily used surfaces such as sanitary areas.

TORMA® BAC can be applied on all water-resistant materials such as artificial and natural stone, plastics, and – for odour removal (e.g. vomit) – on upholstery and carpets. Compatibility tests should be carried out in advance.

APPLICATION

PRE-TREATMENT: Shake well before use.

FOR INITIAL TREATMENT: Dilute **TORMA® BAC** 1:5 – 1:10 with cold or lukewarm water. Apply or spray onto the affected areas and allow to dry. Do not rinse immediately with clear water. Maintain this dosage until no further odour is perceptible.

FOR MAINTENANCE CLEANING: Dilute **TORMA® BAC** 1:50 (200 ml / 10 litres of water).

FOR ODOUR PREVENTION: Add a splash of **TORMA® BAC** daily into siphons and floor drains. This removes biofilms.

Do not use chlorine-based or acidic cleaners at the same time, as this will render the product ineffective.
