FOR 45 YEARS, WE HAVE SET THE GLOBAL STANDARD FOR QUALITY.

CLEANING TABLETS for automatic coffee machines

Kamareta cleaning tablets developed for fully automatic, espresso and filter machines. Kamareta's unique cleaning formula removes all the toughest residues, fats, stains and waste materials from the head group, valves and ducts. Kamareta has an expansive range of tablets that is more than capable of providing you with a complete equivalent to the original.

CLEANER for espresso machines

Kamareta cleaning powder and liquid developed for back flushing all brands of semi automatic espresso machines. The unique cleaning formula removes coffee residue and coffee fats from the group heads, valves, pipes and lines.

CLEANING CAPSULES rapid, thorough cleaning

With the Kamareta unique cleaning capsules, you will be able to fully clean the brewing chamber and delivery spout of your Nespresso® coffee machine. The configuration of cleansers in the capsules has been specially developed and produced for Solute. In coffee machines residue like coffee fats, can be left behind.

MILK SYSTEM CLEANER for milk frother & parts

Kamareta milk system cleaner has been developed for the thorough cleaning of the milk systems of all fully automatic coffee machines, steam pipes, milk tanks, frothing devices, hoses and extensions.

DESCALER for coffee machines

Kamareta descaling products are developed for fully automatic coffee machines, espresso machines and filter machines. Kamareta products contain additives that provide extra maintenance and protection for the delicate parts of your coffee machine.

GRINDER CLEANER coffee bean basis, residue- and clogfree cleaning

Kamareta grinder cleaner has a patented formula specially for use in fully automatic and other professional coffee grinders. Pure natural organic cleaning powder for professional and domestic coffee grinders. Without added chemicals.
