

i-mop XXL[®]

Bigger can be better

Speed,
precision
& design

Meet the i-mop XXL[®]

Sometimes bigger can be better. The i-team proudly presents the new i-mop XXL: a re-engineered powerhouse that literally runs circles around the competition. With a larger scrub deck & new power management system, large obstructed areas become possibilities. This innovation allows the user to clean up to 2800 square meters in just an hour, flipping the script on how a larger auto scrubber should look, feel & handle. Start saving tremendous time when operating the machine, and cut down time on logistics on your larger workspaces. You can approximately save 20% of your time compared to a conventional walk-behind auto scrubber with a size of 50 to 75 cm. Empower yourself with the i-mop XXL, where powerful innovation meets flexible design.

edge to edge

extreme mobility

click on/click off

battery powered

easy transport

62 cm cleaning path.
2 motors.
Nylon protective bumper.
Cleans right up to the edge.

Titanium hinge.
Clean underneath objects.
360° of flexibility.

Easy to fill, clean & empty
above a sink. Use different
tanks for different chemicals.
Reduce unproductive refill
waiting time by prepping
in advance according to
HACCP standards.

Quick exchange.
1 hour recharge work cycle.
2 sets = 24/7 power.
Li-Ion.

Transport wheels.
Fits in normal vehicles.
Easy storage. Lift upstairs.
100% mobility.

A full size scrubber
dryer deck with the
flexibility of a flat mop

Re-engineered for width

In order to achieve the balance between challenging larger areas with the same flexibility and speed as the i-mop XL. We enlarged the scrub deck to give the machine a cleaning path of 62 cm and added more water-capacity.

New power management

We have redesigned the power management system and packed in as much power as physically possible into our new grey i-mop batteries. They are the exact same shape & size as our i-mop XL batteries. You can use them across all of our products, simply plug and play.

Friendly user-experience

With the i-mop XXL, users operate a machine that not only looks & feels right, but also twists and turns like no other scrubber dryer on the market. It's friendly exterior & usability makes it the perfect addition to your fleet.

Total cost of ownership

No new training needed. The i-mop XXL combines all of the elements of the previous build, and upgrades you to work in bigger unobstructed areas. By expanding the range of your machines, the way you operate is in your own hands, without the unnecessary extra overhead.

Lightweight & storage

The i-mop XXL has been designed in such a way that it takes up very little floor space when it's not being used. Store it in a closet within reach. Take it with you up and down steps and stairs. Pop off the batteries and lift the water tank from the machine to load it into a normal personal vehicle. In short, a fully mobile machine.

TECHNICAL SPECIFICATIONS

Weight without batteries	21.5 Kg
Weight with batteries	24.5 Kg
Weight with batteries + water	29.5 Kg
Size box L*W*H	124 X 64 X 37 cm
Power (Watt)	700 W
Material	PP, Aluminum alloy
Battery spec. Li-ion battery	25.2 V, 14 Ah
Running time	60 Minutes
Operation width	62 CM
Clean water tank	5 L
Recovery clean tank	5 L (max. 8 L)
CBM	0,26
Warranty	1 year

i-land[®]

Our goal is to simplify the entire cleaning process and increase your level of joy while you clean. So for long days, huge buildings and on-site projects, you are going to need a work station that holds all of your equipment. That's why we created the i-land. An all-in-one solution, which makes sure you have everything you need in one accessible and convenient supporter.

No more unproductive traveling time!
