

# easy QUICKA

## Surfactant-free, alkaline maintenance and intensive cleaner for floors and walls

### Area of application

Eco-friendly, alkaline, surfactant-free floor and wall cleaner with excellent dirt, protein and fat-dissolving properties. Significantly reduces re-contamination of surfaces. Suitable for all waterproof, microporous flooring such as porcelain stoneware, textured designer floors and natural and artificial stone floors that are non-sensitive to alkalis. Ideal for use in alternation with an acidic product.

### Application

For manual and mechanical maintenance cleaning of normal contamination 0.25% – 1.0%. Dose up to 10% for intensive cleaning and heavy contamination

### Product characteristics

- Awarded the European Union ecolabel (EU Ecolabel)
- Highly active cleaning performance for all mechanical and manual cleaning processes
- Suitable for maintenance and intensive cleaning
- Free from surfactants, enzymes and phosphates
- Ideal for combining with modern types of fibres and pads, e.g. microfibre or PU pad
- Suitable for pre-soaking of microfibre textiles
- Removes extremely stubborn fat/oil and protein contamination
- Ideal for cleaning textured designer floors and porcelain stoneware
- Surface wetting is better than standard surfactant-free cleaners
- Free from VOCs (no volatile organic compounds)
- No re-soiling due to cleaning agent residues
- Free from fragrances and colourings
- Biologically degradable

### Note

Check material compatibility beforehand.

The correct dosage reduces costs and helps the environment.

Do not leave to soak on calcareous flooring during maintenance cleaning as this leaches the floor and results in a matte appearance.

Not suitable for polymer-coated floors or high-gloss surfaces. Rinse with fresh water.

### Technical information

Carton of 12 x 1 l bottles    Product no.    DRS00356  
10 l canister                    Product no.    DRS00357

EU Ecolabel:
