

# easy QUICKN

## Tenside-free, neutral universal cleaner

### Area of application

Eco-friendly, tenside-free, low-foaming universal cleaner with spontaneous cleaning effect. Significantly reduces re-soiling of surfaces. Suitable for all waterproof, special microporous surfaces such as stoneware, impregnated and textile surfaces. Optimum cleaning results when combined with microfibre textiles or a melamine pad.

### Application

For waterproof surfaces: for manual and mechanical maintenance cleaning and for intensive cleaning of regular soiling 0.25% - 1.0%.

Maximum dosage of 5% depending on the degree of soiling.

For textile surfaces: 10% - 20% depending on the degree of soiling for special cleaning using a fibre pad or spray extraction process. Stain removal: 1:1 or undiluted.

### Product characteristics

- Awarded the EU Ecolabel
- Suitable for all mechanical and manual cleaning processes
- Free from tensides, enzymes and phosphates
- Outstanding results when combined with modern fibre pads such as microfibre or PU pads
- Suitable for pre-soaking of microfibre textiles
- Ideal for removing shoe marks, general dirt and slightly greasy dirt
- Ideal for cleaning textured designer floors and stoneware
- Surface wetting superior to traditional tenside-free cleaners
- Non-labelled formula
- Free from VOCs (no volatile, organic components)
- No re-soiling due to cleaning agent residue
- Fragrance-free
- Biologically degradable

### Note

The correct dosage reduces costs and helps the environment.

Do not apply for long periods when cleaning calcareous floorings as this will leach the floor and dull its appearance.

Not suitable for polymer-coated floors or high-gloss surfaces. For doses over 2% it is recommended to rinse off product with cold, fresh water.
